

Top 10 Facts About Donation

1. Your Life is Always First

If you are taken to the hospital after an accident or injury, it is the hospital's number one priority to save YOUR life. Your status as a donor is not even considered until every effort has been made to try to save your life and death has been declared.

2. Everyone Has the Potential to be an Organ and Tissue Donor

Your age or health should not prevent you from registering to be an organ, eye and tissue donor. Most health conditions do not prevent donation and age is not a factor – the oldest organ donor was 92!

3. All Faiths Agree

All major religions in the United States support organ and tissue donation and consider it a generous act of caring.

4. There is No Cost to Your Family

If you decide to be an organ, eye and tissue donor, your family will NOT have to pay for any medical expenses associated with the donation.

5. One Life can save up to 75

One person can save and heal up to 75 lives through organ and tissue donation!

6. Everyone is Equal

When it comes to waiting in line for an organ transplant, we are all created equal. Wealthy or famous individuals cannot and do not get bumped up higher on the national transplant waiting list. Factors such as blood type, body size, location, severity of illness and length of time on the waiting list are used to determine the best candidate for an organ.

7. Your Decision Will Be Honored

When you register to become an organ, eye and tissue donor you are making a legal decision and, even after your death, your decision will be honored. It's important to talk with your family to make sure they are prepared to honor your decision at the time of your death.

8. If You Don't Make a Decision, Your Family Will

If you haven't registered to be an organ, eye and tissue donor your family will be asked to make a decision about donation on your behalf. Therefore, it is incredibly important that you have a conversation about donation and share your wishes with your loved ones.

9. You'll be Treated With Respect

Organ, eye and tissue donors are heroes and are treated as such. The medical professionals who perform the recovery surgeries treat donors with the utmost respect, just like they would for any other patient. If you and your family were planning on an open casket funeral or viewing, these plans should not be affected by donation.

10. Registering is Easy

Registering to become an organ, eye and tissue donor is simple. You can register right now, online, in Minnesota, North Dakota and South Dakota. Or you can check the box to register to be a donor when you apply for or renew your driver's license, state identification card or learner's permit.
