

ORGAN, EYE AND TISSUE DONATION

Contributor Privacy Policy

Mission

LifeSource saves lives and offers hope and healing through organ, eye, and tissue donation. We believe that everyone shares the gift of life. At LifeSource, we are relentlessly pursuing a day where everyone in need of a life-saving organ transplant, gets one.

Philanthropic gifts made to LifeSource primarily support two key areas, unless otherwise specified.

- education and awareness programs for community members and professional partners with whom we work to advocate continued support for donation and donor designation.
- care and grief support of donor family members, from the time of their loved one's donation, and for as long as desired by the family.

Philosophy

Consistent with our values of respect and accountability, LifeSource strives to protect the privacy of contributor information, to foster deeper communication, and create greater public trust of our stewardship of these philanthropic gifts.

*Given the nature of our work, the term "donor" is reserved for individuals (living and deceased) who share the gift of life through organ, eye, and tissue donation. "Contributor" is used to recognize financial and philanthropic supporters of this mission.
