

# Get to Know the Donation Fast Facts

OPTN  
data as of  
November  
2020

Thousands of men, women, and children in the United States are waiting for life-saving organ transplants. Each year, approximately one-third of those people receive their life-saving transplant and a hope for a renewed life because of the generosity of individuals who - at a time of personal grief - thought of others in need. Despite this generosity, the need continues to grow.
