Donation Fast Facts

OPTN
data as of
March
2022

Thousands of men, women, and children in the United States are waiting for life-saving organ transplants. Each year, approximately one-third of those people receive their life-saving transplant and a hope for a renewed life because of the generosity of individuals who – at a time of personal grief – thought of others in need. Despite this generosity, the need continues to grow.

ON THE WAITING LIST

	REGIONAL	NATIONAL
Kidney	2,535	89,970
Liver	219	11,371
Heart	100	3,414
Kidney-Pancreas	163	1,832
Lung	49	1,056
Pancreas	112	841
Intestine	0	201
Heart-Lung	4	39

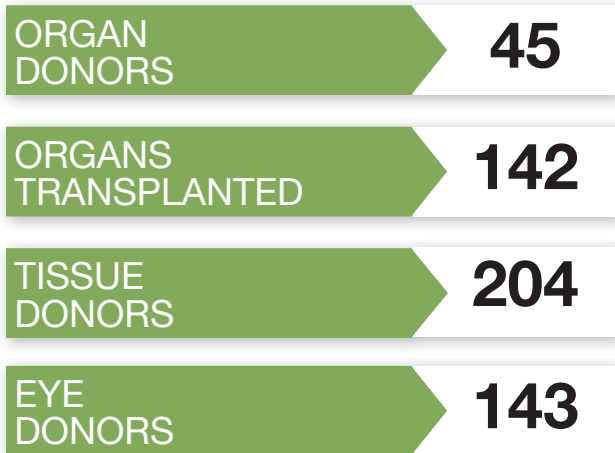

ADULTS REGISTERED AS DONORS

Data as of February 2022. The reported Donor Designation Rate is the percentage of individuals who register as donors at the DMV during a quarter.

DONATION ACTIVITY

January – March 8, 2022

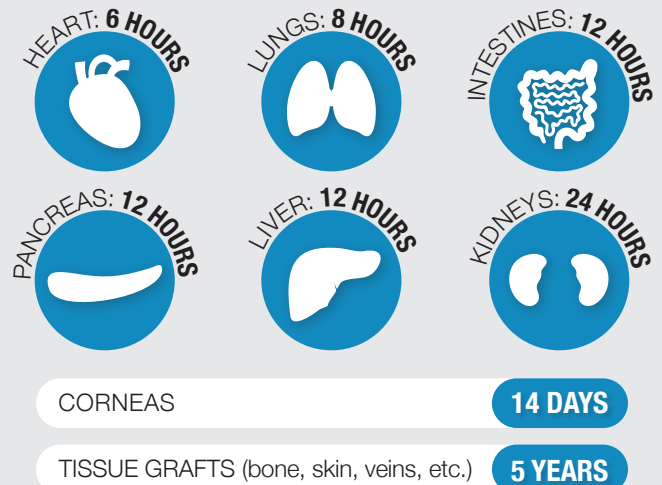

Each day, **17 people** die while waiting for a transplant. A new name is added to the transplant waiting list every **9 minutes**.

DONATION TO TRANSPLANT

Transplants must occur within specific time frames:

Organ, eye and tissue donation is a generous, selfless gift.

Keegan was born with a rare liver disease called biliary atresia, typically diagnosed a few weeks after birth. The only thing that would save his life: an organ transplant.

Because one family said yes to donation, Keegan was able to receive the transplant that he so desperately needed.

Keegan (center), recipient

"Live life, then give life. We all have an opportunity to try and let someone else live longer when our time does come." - Heather Johnson, Keegan's mother
